Dear Sir

I have been to look at W<sup>m</sup> Browns  
House and find that one ~~gable~~<sup>gable</sup> end and Chimney  
is verry bad and likely to fall every little  
wind that comes and the dairy wall is verry  
much decayed, and think the sooner something  
is done at it the better. Old Mr. Cliff that  
was appoind last before the Warden is ben  
verry ill and not likely to continue long.  
If he should not If you will have the  
goodness to think of Con<sup>rt</sup> Peach of Ketton  
I shall think it a great favour confer'd on

Y<sup>r</sup> Most Obedt Serv<sup>t</sup>,

Rob<sup>t</sup> Peach
